

Keeping KLove Christian radio on the air as it has been doing for years has been an inspiration to my family and me. It has been a blessing to have on call pastors praying for needs and inspiring many people in their every day life. I guess one really does not understand the power of prayer or the power of fellowship if you do not believe in Jesus Christ our Lord and Savior. Even people that are lost turn to someone in their weakest moments.

I know from first hand experience they have been there for me. When I needed prayer they were there. When I needed someone to encourage me there they were. When I felt like no one cared I turned to this station and knew that I was not alone. Someone can say, oh, everyone goes through things in their life we just have to deal with it. How encouraging is it to know that you do not have to go through your circumstance or situation alone.

By having a Christian Radio Station on air without interrupted commercials, perverted language, or instituting sexual content as most other stations now allow, Christian radio delivers positive, encouraging, and fresh new music as well as wonderful staff that **does** care about others and how they feel.

If you allow to have required community advisory boards, additional staffing, and force many of Christian radio's translator station off of the air than you are responsible for what this world currently possess; corruption. Have we not the freedom to allow our children to grow up with morals and values of positive influence. Have we not the right of freedom of religion. Must you continue on being overzealous on what freedom means to so many. Freedom to me is living with Jesus Christ in my heart and being able to share that with anyone without being afraid.
